

Create Lessons **YOUR way** with a completely customizable lesson builder

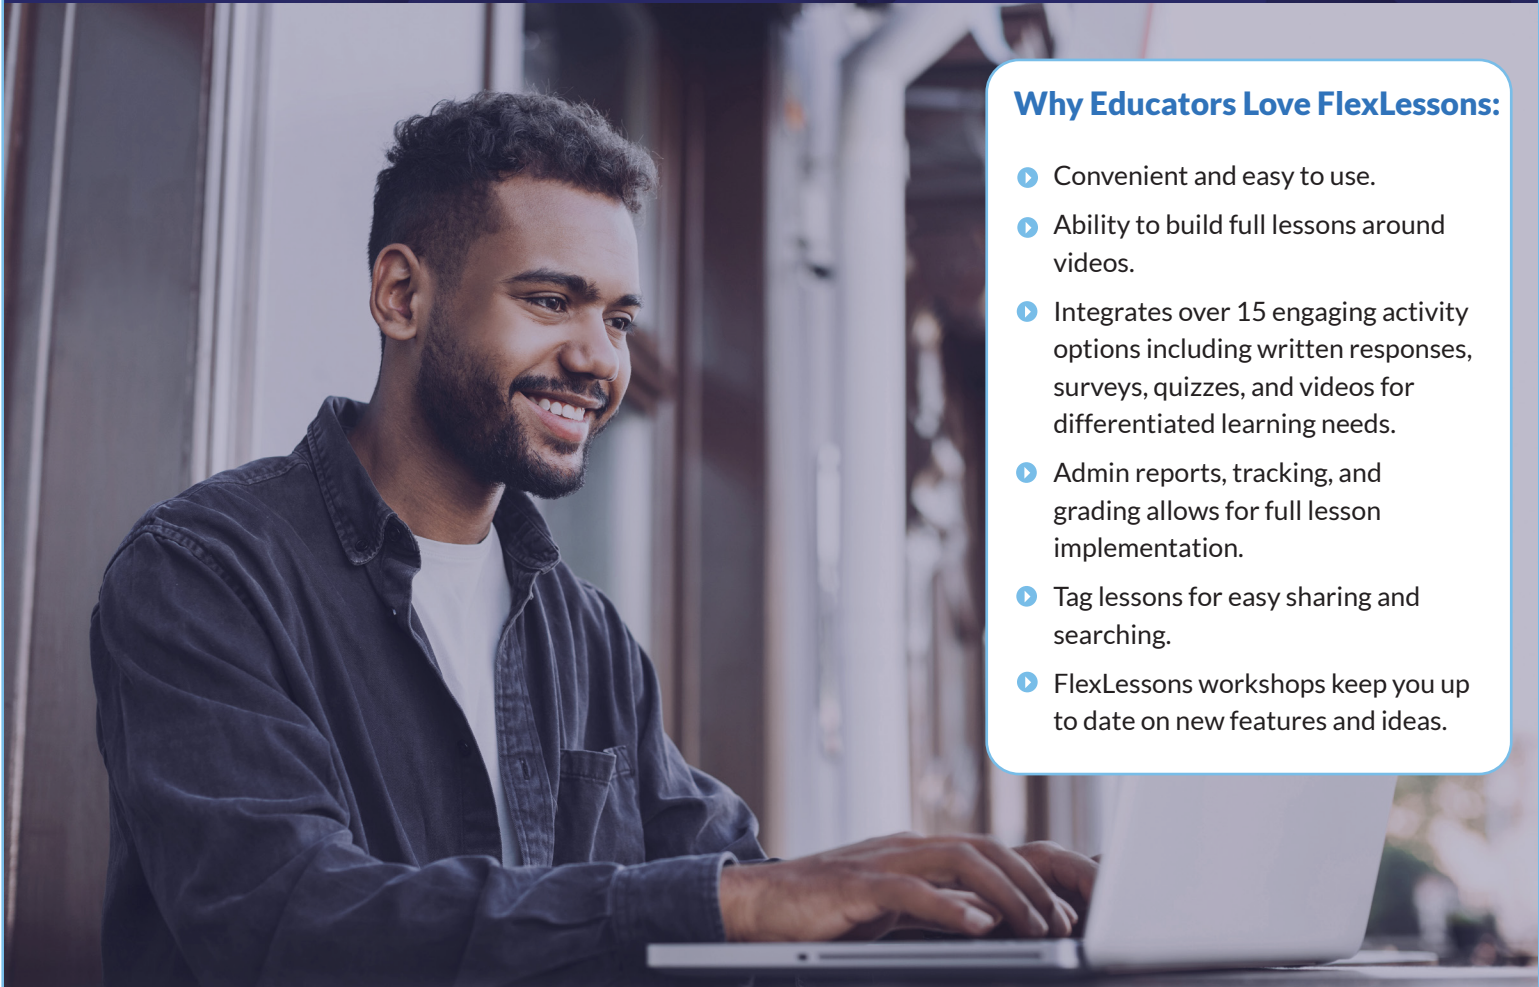

FlexLessons allows you to assign or edit pre-built lessons or build custom lessons on the VirtualJobShadow.com platform. This flexible, easy-to-use tool allows educators to build lessons for a wide range of students based on interests and abilities.

Use FlexLessons to:

- ▶ Assign lessons for a single student, an entire grade, or a group.
- ▶ Build lessons from scratch, edit or use our pre-built lessons.
- ▶ Integrate VirtualJobShadow.com videos and tools.
- ▶ Add your choice of external sources, including online articles and YouTube videos.
- ▶ Integrate outside resources like Google Classroom, Screencastify, etc.
- ▶ Customize the lessons you build even further with title, short description, and thumbnail image.
- ▶ Explore any subject—this is a cross-disciplinary tool.

Why Educators Love FlexLessons:

- Convenient and easy to use.
- Ability to build full lessons around videos.
- Integrates over 15 engaging activity options including written responses, surveys, quizzes, and videos for differentiated learning needs.
- Admin reports, tracking, and grading allows for full lesson implementation.
- Tag lessons for easy sharing and searching.
- FlexLessons workshops keep you up to date on new features and ideas.

"One aspect of VirtualJobShadow.com that has been helpful are the FlexLessons. I appreciate that lessons have been created for us, and that you are also able to edit them based on the learning needs of the students."

—Susan K., Educator at North Farmington High School
